

The Power of We™

Avaya B169 Wireless Conference Phone

The Avaya B169 Wireless Conference Phone is a breakthrough, making conference calling easier and more convenient.

Enjoy a new level of freedom and convenience with conference calling

The Avaya B169 Wireless Conference Phone is a breakthrough, making conference calling easier and more convenient. Take the B169 Wireless Conference Phone anywhere in the office and get the exceptional quality and wealth of features you expect from the flagship Avaya B100 Series conference phones – with a big difference: there’s no need for phone jacks or power outlets. That’s the freedom of the B169 Wireless Conference Phone.

Capabilities

You **Can** Take It with You

Why take conference calls only from specific conference rooms, boardrooms or executive suites within your facility? Simply carry the uniquely-designed B169 Wireless Conference Phone anywhere in the office that has wireless access and you’re good to go. Conduct high quality audio conferences virtually anytime and anywhere.

The rechargeable lithium-ion battery provides superior performance for up to 60 hours of talk time; that’s a full work week without having to recharge.

Crystal clear sound

Avaya has gone to great lengths so that the sound quality of the B169 Wireless Conference Phone lives up to the extraordinary standards of the rest of our award-winning conference phones. The B169 supports DECT, with the GAP/CAT-iq technology standard, to reduce interference from other devices and deliver clear conversations. With the

award-winning Avaya OmniSound® 2.0 technology, every participant is easily heard, with noise suppression filters that virtually eliminate distracting background noise.

Good things come in unique (and wireless) packages

Each of the Avaya B100 Series Conference Phones is packed with capabilities to make conference calling easier and more productive. The B169 Wireless Conference Phone furthers that tradition. It includes an SD card slot to record calls on-the-fly and archive them for future review. Its built-in conference guide helps you dial multi-party calls, store up to 20 call groups and initiate reoccurring conference calls.

Easily expand the coverage of the B169 with available add-on microphones. Connect your PC or cell phone via Bluetooth or USB connection. Use the included phone book to conveniently store up to 200 frequently called numbers.

Benefits

Enhance communications: Bring HD-quality audio conferencing with you where and when you need it; everyone on the call (and in the room) can be heard with clarity

Improve productivity: Set-up and manage conference calls with ease; record calls for archiving and playback

Make faster decisions: Make it easy to collaborate and communicate with colleagues, customers and suppliers by taking conference calls just about anywhere in your office
